THE COUNTY SWEEP BY WIND AND RAIN

Heavy Storm Passed Over the City Shortly After Midnight.

The Creek are all Swollen and Some of the Roads Damaged by Rain.

NO SERIOUS LOSS REPORTED

Another heavy rainstorm swept over the city shortly after 12 o'clock last night, and was accompanied by considerable wind. The rain continued for some little time, and according to the government observer, Mr. Wm. Bornemann, amounted to 1.10 inches.

The rain in the lower part of the county was the heaviest on record, according to telephone messages from that section, and did considerable damage to fences, and roads but fortunately to none of the bridges and culverts.

The county road supervisor began early this morning to investigate the extent of the damage and found that it will not be large to the county roads, and no damage at all to the bridges is reported.

Massac creek is out of its banks and other creeks were swollen until they threatened great damage. The wind did practically no damage. There was quite a flurry down about the wharf, but fortunately no damage was done and if any of the tie barges below at Brookport and Joppa suffered no notice was received here. The tie men are all on the look out for such storms this time of the year and keep their barges securely tied.

Those who were so unfortunate as to have to be out in the storm, such as police officers and others who work at night, say that the rain and wind seemed to increase into a veritable cyclone, and they expected great damage to be done. They were surprised to learn after the force of the wind had subsided that the damage, especially in the city, was inconsequential.

County Road Supervisor Johnson will have men at work at once to repair the roads where the damage is such as to impede traffic, if such places are found. The greatest damage it seems from reports from every part of the county, was from the rain itself.

The telegraph and telephone companies in the city did not have any wires down except those to St. Louis and Chicago. Those in this section stood the storm well.

REBEL LEADER

General Arras Caught and Executed.

End of the San Domingo Revolution is in Sight.

Santo Domingo, March 25.—General Arras the insurgent leader who gave orders to shoot Machinist Johnson aboard the gunboat Yankee Nov. 1, was captured by Government troops Wednesday and after a drum head court martial, was sentenced to death immediately and shot. The end of the revolution is fast approaching.

CANINE DOOMSDAY.

IMPOUNDED DOGS WILL BE DROWNED NEXT TUESDAY.

Since Chief of Police James Collins has been waging war against the unlicensed dogs, something like 30 have been taken up and placed in the pound in the rear of the city hall.

The dogs will be kept until about Tuesday and all owners who have not called and paid the license in order to secure the release of their pets, will lose them, the dogs being drowned on that day.

MUZZLED THE PRESS

Correspondents are Closely Watched in Colorado.

Miners and Strikers Are Ordered From the District.

Denver, Col., March 25—Captain Wells has established a press censorship at Telluride besides which that enforced by Russian and Japan pales into insignificance.

Every newspaper correspondent is watched incessantly and guards at the telegraph and telephone offices see that no news concerning the military administration in the county goes out.

Yesterday ten strikers and their families were ordered from their homes in a howling blizzard.

OTHERS MUST LEAVE.

Telluride, Col., March 25—it is understood that Captain Wells will today order more miners and strikers from the district. A majority of the exiles are property owners.

WARD MUST SERVE

THE FORMER TENNESSEE ODD FELLOWS' CASE AFFIRMED.

Nashville, Tenn., March 26.—The sentence of Homer D. Ward to ten years' imprisonment for having carnal knowledge of one of the orphan inmates of the Odd Fellows' Home at Clarksville, was affirmed by the Supreme Court today. Ward was superintendent of the home and 11 year old Susie George was the victim in the case in which Ward was convicted. He fled to California on the alleged offense becoming known and was arrested there. There is another indictment against Ward, charging the same offense upon a different girl. There are a number of other charges against him also. The course as to these has not yet been decided on, according to W. E. Metzger, president of the home.

RUSSIAN SHIP INCOG.

VOLUNTEER FLEET STEAMER TRAVELS AS A JAP COLLIER AND REACHES ODESSA.

Odessa, March 25.—The volunteer fleet steamer Vereney, the first Russian ship to leave the far East after the outbreak of the war, has arrived here, having eluded the Japanese by a clever ruse. She was painted to resemble a Japanese collier which left Vladivostok just before her. The captain of the Vereney had resolved to take to the boats and blow up his ship if hard pressed by the Japanese.

PRARIE FIRE

HEADED FOR NEBRASKA TOWN WHICH MAY BE DESTROYED.

Lincoln, Neb., March 25.—A dispatch from Norfolk, Neb., says the town was dark at noon from the smoke which came from fresh prairie fires west of there.

Many houses and barns near Atkinson were destroyed. A blaze from Simmons ran thirty miles. The fire which threatened Newport is heading for the town of Amelie, which it is believed, will be destroyed.

LOST \$355

PEST HOUSE KEEPER HAS BAD LUCK WTH POCKET BOOK.

William Whellis, keeper of the city pest house, lost \$355 near the market house, on South Second street this morning. He reported the loss to the police station this afternoon. It was in his pocket book, and he thinks he left it somewhere.

MR. SHEERERS' FUNERAL.

The funeral of the late Mr. D. B. Sherrill will take place from the First Presbyterian church Sunday afternoon at 2:30 o'clock. The service will be conducted by Rev. Francis R. Beatty, D. D., of Louisville. The burial will be at Oak Grove.

HOSTILE FORCES ACROSS THE RIVER--- BATTLE EXPECTED

Desultory Firing Between the Opposing Troops in East.

Conflicting Reports About Success of the Jap's Last Effort to "Bottle-Up".

RUSSIAN TROOPS BEING RUSHED TO FRONT

London, March 25.—Russians are reported holding the North bank, and the Japanese the south bank of the Angu river, where the latter have thrown up entrenchments. The hostile forces are thus face to face, and desultory shots are being exchanged.

MORE JAPS LAND.

Rome, March 25.—A telegram from Chefū states that eight hundred Japanese have landed at Chinnampo, Korea, March 22. This makes a total of ninety eight thousand Japanese on Korean soil.

RUSSIANS ARE NOT IDLE.

London, March 25.—Dispatches from Ping Yang say that returns to the Japanese Intelligence Department show that forty-five hundred Cossacks of the Russian infantry crossed the Yalu river from Antung during the last five days; three thousand Russians are holding Angu, and a thousand are at a point on the Korean bank of the Yalu. Five hundred Russians have proceeded to a strategic point southward and now occupy Chun Ju. TROOPS ARRIVING IN GOOD FORM.

St. Petersburg, March 25.—The Novo Vremya's Vladivostock correspondent states that troops are arriving there in magnificent form, and the highest spirits.

RELATIONS FRIENDLY.

Pekin, March 5.—Denials have been issued of the report that the relations between Russia and China are strained. Chinese officials claim that the feeling between the two nations were never more friendly.

JAPS MUST KEEP OUT OF SIGHT.

St. Petersburg, March 25.—Governor Provin of Tomsk has ordered the Japanese in the province to keep inside their houses and remove their signs from the shops, as he cannot guarantee to protect them. They must, he says, be prepared to protect themselves.

RUSSIAN OFFICER BANISHED.

St. Petersburg, March 23.—General Altavater, inspector of artillery of the Russian army has been banished to a remote military post in Caucasus, in deep disgrace. His banishment is due to the fact that the new quick firing guns which he informed the Czar would be ready in three months can not be ready before the end of the year.

REPORT NOT CONFIRMED.

London, March 25.—The report from Tokio that the Japanese succeeded in bottling up Port Arthur the night of March 22 was not confirmed from any other quarter. The story was to the effect that the Japanese had sunk seven merchant steamers in the harbor entrance.

The Russians also express much more satisfaction at the present situation in Liao Tung. The forces on the peninsula have been reinforced to an extent which will render a Japanese landing there difficult if not impossible and the garrison at Port Arthur has been amply provisioned to withstand a siege? So far as the peninsula is concerned the preparations there may now be regarded as complete.

DEATH ON SOUTH SIDE.

Bailey Sexton, the 10 year old son of Mr. J. B. Sexton, died this morning at 724 South Sixth street of marasmus. The Sexton family came here four months ago from Stewart county, Tenn. The funeral will take place tomorrow afternoon at 3 o'clock and the burial will be at Oak Grove.

NO TRIAL TODAY

Howard, the Would-be Son Killer, Not Arraigned.

Alleged Box Car Breakers Were Acquitted of Felony and Fined.

The trial of Grant Howard, colored, the railroader charged with suspending his ten year old son over a slow fire in Rowlandtown night before last and leaving him, did not come up in police court today, to the disappointment of a large crowd. It is set for tomorrow and will probably be tried.

Frank Arbuckle, who stole the old News Office Cannon, was not tried this morning on account of illness.

Arbuckle had an umbrella pack upon his back yesterday when he went into the residence of ex-officer Buck Whitehurst, and not getting any work to do was given his dinner. He stole two umbrellas, it is alleged, and the brass cannon lying on the front porch. The city has taken care of Arbuckle at times and the police were very greatly surprised to learn of his dishonesty.

Carl Thompson, a vagrant, was given one hour in which to leave town. He walks on crutches and was very impudent to those who refused his appeals for alms.

Humphrey Shea, George Press, Charles Grady and Ed Girley, white, were fined \$20 and costs each for entering an I. C. box car. They were alleged to have feloniously broken the seal, but claimed they did not and had gone into the car simply to get a ride to Memphis.

BRITISH ATTACKED

REVOLT OF BLACKS IN GERMAN SOUTHWEST AFRICA SPREADS TO ENGLISH TERRITORY.

Berlin, March 25.—Gov. Von Puttkammer of the Cameroons, cables that the revolt of the natives has spread to Cross river (one of the points marking the boundary of German territory in West Africa) and been extended to British territory in Nigeria and that the British customs station at Obukum was attacked on March 10. The governor adds that Col. Muller is at Cross river and has the situation in hand.

TREATY UNSIGNED

LANSDOWNE SAYS NONE WAS THOUGHT OF BY WHICH COUNTRY WOULD BE GIVEN TO FRANCE.

London, March 25.—Foreign Secretary Lansdowne in a letter replying to an inquiry from merchants, says that no agreement has yet been concluded with France concerning Morocco, and that none was ever contemplated by which Morocco would be ceded to France.

WOMAN OUTRAGED

FEARFUL CRIME PERPETRATED NEAR WESTWOOD, O.

Cincinnati, March 25.—The body of an unknown young colored woman has been found near Westwood with every indication of an atrocious outrage and murder. Her skull was crushed with a club, one eye was torn out of the socket, most of her hair pulled out and her body badly mutilated.

REBELS DEFEATED.

Berlin, March 25.—Word has been received that the German troops have defeated the rebel Herreros in German Southwest Africa, at Omatakeberg.

Two Germans and ten Herreros were killed.

Miss Jane Ratcliffe, of the county, aunt of Mrs. E. K. Wilson, Miss Minnie Ratcliffe and Mr. Charles Ratcliffe, of this city, who is very low from la grippe was slightly better this afternoon.

AMONG THE SICK.

Mr. Charles Sugars of the local I. C. yard offices, has recovered after a brief illness.

EGGS AND POULTRY.

Cincinnati, O., March 25.—Eggs 15, butter and poultry unchanged.

GREAT DAMAGE DONE BY STORM

In East St. Louis it was the Worst Since 1896.

Chicago Also Suffers From the High Winds—A Few Fatalities.

TRAIN RUNS INTO WASHOUT

St. Louis, Mo., March 25.—The worst storm since the memorable and destructive cyclone of 1896 which destroyed so many lives swept over this section last night.

Atlasita, a suburb of East St. Louis, suffered worst of all in this vicinity. Two persons were fatally hurt, and many were injured. There has been so much excitement and confusion that it is impossible to learn the exact extent of the fatalities.

Several of the largest buildings were totally demolished, and it is estimated that the property loss will reach half a million.

CHICAGO GETS A SWIPE.

Chicago, Ill., March 25.—This section was visited by a storm last night that soon reached the proportions of a cyclone. It blew down buildings and otherwise damaged much property, and carried away nearly all the telegraph and telephone wires in this section of the country, prostrating the service in all directions. Three persons are known to have lost their lives and others were fatally injured. The storm did not strike the business portion of the city in its greatest force.

The storm in the vicinity of Indiana harbor was the most severe ever known there. Three people are known to be dead, several are fatally hurt, and at midnight there were several others reported missing and they may be buried in the ruins of their homes.

A two-story brick building, known as the Barker building, was blown down and a number of people who had sought shelter there were buried in the ruins.

The dead:

M. BARKER.

TWO UNKNOWN MEN.

Thirteen people are still missing. The storm created havoc in the town of Hammond, Ind. A number of residences were badly damaged and two people were injured but not fatally. One end of the large plant of the Republic Iron and Steel company was blown down, causing a loss of \$25,000. A number of business houses were unroofed, and the city tonight is in total darkness.

In Grand Crossing, eight miles south of the center of the city, a number of buildings were wrecked, freight cars blown about the yards and the tracks of the railroads covered with debris to such an extent that the majority of incoming trains could not proceed.

The telegraph and telephone companies suffered greatly south of the city. Up to midnight not a wire was working east of Indiana Harbor on any of the three railroads running through the place.

In the suburb of Thornton the frame dwelling of E. Gardner was blown into a stone quarry and was reduced to kindling wood. Gardner was fatally hurt, and his wife sustained serious injuries. Several other people were injured and it was impossible to summon aid by telephone or telegraph.

TWO KILLED IN WASHOUT.

Niles, Mich., March 25.—An extra freight train on the Michigan Central ran into a big washout this morning at Miller's Station and killed two trainmen outright and fatally injured two others. The train was almost completely demolished.

AMONG THE SICK.

Mr. Charles Sugars of the local I. C. yard offices, has recovered after a brief illness.

EGGS AND POULTRY.

Cincinnati, O., March 25.—Eggs 15, butter and poultry unchanged.

ELATED OVER HIS SUCCESS

Manager English Meets With Great Encouragement.

The People Indorse His Opera House Project and Will Raise \$10,000.

PRACTICALLY INSURES HOUSE

Manager James E. English, of the Kentucky theater, has returned from Henderson, where he went Tuesday, after the incorporation of his new theater company, which is to build a new opera house in Henderson.

Manager English met with nothing but encouragement in his project. The people of Henderson are very anxious to get a new theater, and appreciate the enterprise of the hustling Paducahan. It is probable that in comparatively a short time active work on the new building will begin.

Yesterday's Henderson Gleaner says:

"Another meeting of the committee was held at the Carnegie library last evening to confer further with Mr. English relative to the building of the proposed opera house. The entire board of membership with the exception of Mr. S. K. Sned, was present. The plans and specifications of the proposed building were submitted to the committee and with the exception of one or two minor changes made in the specifications, they were adopted by a unanimous vote."

"The opera house drawings show it to be one of the prettiest and most conveniently arranged playhouses in the country."

"Mr. English has his bond which is acceptable to the committee, thus settling that important branch of the proposition."

"Immediately after it is announced that the required tickets have been disposed of, Mr. English binds himself to proceed actively and without delay to the building of the house. When it is under roof it will be insured in the sum of ten thousand dollars for the benefit of the ticket holders and thereupon the tickets become due and are payable. A special committee composed of S. U. Green and James R. Rash is appointed and commissioned to go before the people of Henderson in an effort to sell the number agreed on."

"Henderson is fortunate in the selection of the committee and the committee is fortunate in finding the parties it has to provide the new opera house. The building, the Gleaner will say again, will prove one of the most beautiful playhouses in the country, fully equaling, if not surpassing the lamented Park theater. It will be erected on the same ground occupied by the Park but will—if the Gleaner is correctly informed—present a more imposing exterior."

GIVES HEALTH, VIGOR AND TONE.

Herbine is a boon for sufferers from anaemia. By its use the blood is quickly regenerated and the color becomes normal. The drooping strength is revived. The languor is diminished. Health, vigor and tone predominate. New life and happy activity results. Mrs. Belle H. Shirel, Middleborough, Ills., writes: "I have been troubled with liver complaint and poor blood and have found nothing to benefit me like Herbine. I hope never to be without it. I have wished that I had known of it in my husband's lifetime." 50c. Sold by DuBois Kolb & Co., Paducah, Ky.

DIED IN ARIZONA.

Mr. Archie Wood, aged 40, a railroad man of St. Louis, died yesterday in Tucson, Ariz., from consumption. He was a son of Mrs. Mary Jenkins, of Eddyville, who is a guest of Mr. George C. Crumbaugh, on North Seventh street. She went to see him in St. Louis to or three weeks ago, just before he left for the west for his health. He leaves a family in St. Louis, where the remains will probably be taken for burial.

DISAPPOINTED MARKSMEN.

The live bird shoot of the Paducah Gun club did not take place yesterday afternoon because the live birds failed to arrive. Hereafter the members will announce no live bird event until they have received the pigeons.

ARE TO START NEW BRIDGE SOON

Illinois Central Must Have in all Bids by April 1st.

Bill Has Passed in Congress—The New Tennessee River Structure Will be Moved a Mile.

CONTRACT TO BE LET AT ONCE

The Illinois Central railroad company will begin immediately to build the new Tennessee river bridge, near Gilbertsville, and all contractors who will bid on the excavations have been notified that their bids must be in by April 1st.

Mr. F. W. Katterjohn, of the city, has been notified of the road's intention and will place a bid on the excavations. The company will use its own men in putting up the bridge and outside contracts are let for the excavations and such preliminaries.

The actual work on the bridge will begin as soon as the excavations are finished, and the contractors are given until August 4th to finish this work, whenever the successful ones are. The time restrictions are fixed because the road intends to make this necessary improvement at once. This action on the part of the road is the result of the recent inspections by the higher officials of the road, and they will personally rush the work and have the improvements completed as soon as possible.

Tennessee river bridge, it will be remembered, partially burned last summer and a new span was built temporarily. As soon as the new bridge is completed the old one will be abandoned.

A bill, introduced by Congressman Ollie James in Congress granting permission to build the bridge has just been passed, and the company is ready to start work at any time.

The new bridge will be built a mile or more from the present bridge at Gilbertsville, owing to the fact that the track can thus be straightened and time and distance saved.

DOCTORS MEET JOINT COMMITTEE

And Take Some Action on the New City Hospital Building.

It Is Desired That the Work of Deciding On Plans and a Location Be Taken Up.

MEETING CALLED AT ONCE

A meeting of the hospital committee of the general council and committee from the Paducah Medical and Surgical society will be held as soon as the doctors select a date of meeting to decide on the kind of city hospital to be built, and where to build it. The question is an important one, and it is desired to settle it as soon as possible.

The members of the joint committee are Alderman Orme, Smith and Durrett, and Councilmen Watson, Ingram and Hymans. There is at present no particular site in prospect. The members will first consult with the doctors before taking steps to secure a site, as they seem to want to be guided by the recommendations of the doctors.

It is probable that the doctors will at one set a time for the meeting, as they are very anxious to have the hospital question settled and work on the building begun.

It is probable that the plan to be suggested by the doctors will be the "cottage plan." Instead of one large building, there should be a main hospital and a number of small cottages for the isolation of the patients. This is the most successful as well as most modern hospital plan, it is claimed.

DEAD IN HIS CELL

Alabama Murderer Cheats the Gallows at Tuskegee.

Murdered His Sweetheart—Rope to Hang Missouri Robber Found Out.

MINER SUFFERS SEVEN DAYS

Tuskegee, Ala., March 25.—Ralph Armstrong was found dead in his cell here, having hanged himself with his belt. Armstrong was under sentence of death for the murder of his cousin, Miss Alice Armstrong, at Notasulga, three months ago. He shot her when she refused to marry him, telling him she was engaged to another in Atlanta.

A special term of court was called and Armstrong was tried and convicted of murder in the first degree, but an appeal was taken. His defense was mental irresponsibility at the time. He left two letters to his mother, outlining his purpose to kill himself.

The young man was a son of the late Col. H. Clay Armstrong, Consul to Rio Janeiro under President Cleveland, and was a member of one of the most prominent families in the state.

CUT HANGMANS' ROPE.

Union, Mo., March 25.—It was discovered last night that the rope which will be used for the execution of Geo. Collins, the alleged Union bank robber, who was convicted of killing Detective Schumacher, has been cut.

Sheriff Bruch believes that it is part of a plan for Collins' escape, arranged by friends of the condemned man. The rope was sent to St. Louis. Unless the Governor grants another reprieve Collins will be hanged tomorrow.

SEVEN DAYS IN MINE.

Cumberland, Md., March 25.—Albert Cronkin, a miner of Henry W. Va., has been brought to the hospital here, having been rescued after seven days' hunger in a coal mine. He was entombed by an explosion in which three were killed. Cronkin was badly burned, but it is thought will recover.

The Tennessee is in from Tennessee river and will go out on return trip tomorrow afternoon at 6 o'clock.

NOTHING HEARD

SUPPOSED THE GOVERNOR HAS BEEN TOO BUSY TO LOOK OVER PAPERS.

Nothing has yet been heard from the findings of the court martial held here by Major Bassett some time ago to try local members of the state guard for failing to attend drill. The papers were sent to the governor to be reviewed, and it is supposed he has been too busy passing on the bills enacted by the recent legislature to give the other matter his attention. Considerable interest is felt in the result of the court martial, and the announcement of the verdicts is awaited here with some degree of impatience.

CHIEF CLERK QUILTS

RABBI'S GOOD WORK

Rabbi Enlow's Congregation to Build New Temple.

The Edifice Will Cost About \$150,000 and Will Be the Finest in the State.

OLD TEMPLE TO BE SOLD

Rabbi H. G. Enlow, formerly of Temple Israel, Paducah, has accomplished a great deal since he went to Louisville three years ago. Largely through his efforts the congregation of Temple Adas Israel, at Louisville which is one of the wealthiest in the country, has decided to erect a new \$150,000 Temple, the finest in this part of the country.

The Temple now in use will be sold and the new one located somewhere in the Southern part of Louisville. Says the Louisville Herald:

The congregation of the Adas Israel Temple is one of the wealthiest church bodies in the city, and among its members are some of the foremost citizens of Louisville.

Exactly where the new temple will be located is not known but it will probably be south of Kentucky street. The new structure will cost about \$150,000.

On the old temple there still remain a debt of \$15,000. The debt was considerably more many years ago, but the indebtedness has been gradually reduced. A large part of the money with which the new temple will be built will be raised by issuing bonds. Large donations by the members will also furnish a considerable sum.

The original site of the Temple Adas Israel was on the location now occupied by the store of the Starr Dry Goods Company, on Fourth avenue, between Walnut and Green Streets. This temple was destroyed when the old Louisville Theater was burned.

A year after that fire thirty-seven years ago, the temple now occupied was built, and has been occupied continually since.

The congregation has had five rabbis, Rabbi Gotthelf was the first, then in order came Rabbi Aleeburg, Rabbi Hirsh, Rabbi Moses and Rabbi Enoch.

RED MEN MEET

ELECTION OF OFFICERS TO BE HELD THIS EVENING.

The Red Men will this evening at the regular meeting of the lodge elect officers for the ensuing six months, and a large attendance is expected at the meeting.

There have been fully 100 applications for membership received, and it is likely they will be presented for action this evening. Very few have thus far been turned in, owing to the desire of the competing sides to conceal the extent of their work from the others.

It is dangerous for one to take patent medicines of unknown composition.

When a person is really sick, the best course is to call a physician. Often times, however, a person is run down and out of sorts, without being actually sick.

At such times a good common sense digestive tonic is usually all that is needed.

Such a tonic is Walther's Peptonized Port, which you can get at any drug store. It consists simply of pure port wine and pure pepson. The first gives you a new blood, new life; the second prompts a perfect performance of the digestive functions.

TAX RATE NOT RAISED

The Mayor and Solicitor Do Not Agree on the Law.

The Fire Department Extensions Ordered—Objection to Public Works Board Ordinance.

OTHER BUSINESS OF ALDERMEN

The members were all present at last night's meeting of the Board of Aldermen.

Mayor Yeiser's action in buying the Clark property at Tenth and Clay streets for \$3,000 was ratified.

The mayor also made a report in regard to the bill in congress to have models made of war ships named after various cities.

The ordinance for sidewalks from Fourteenth to Seventeenth and from Eighteenth to the city limits on Jefferson street, were turned back for amendment, it being claimed that the requisite number of property owners have not signed the petition.

The mayor, in the matter of the increase in fire insurance rates, said that the joint committee would make a report later on, and that as to a new station near Eleventh and Tennessee streets, he had looked over some sites but did not care to make public his choice. He said in regard to the money that if the aldermen desired they could raise the tax rate from \$1.65 to \$1.75 on the \$100.

The contract with Attorney Campbell Flomoy for fifty per cent. of all tax on poles be collected from telegraph companies, was entered into. Bills amounting to \$5,649.34 were allowed.

Chairman Orme, of the finance committee, presented a recommendation from the committee that the city pledge an extra \$2,000 to the library trustees for next year in order that they may open the library now. The recommendation was concurred in.

The ordinance prescribing the duties of the board of public works was read and President Reed objected to it on the grounds that it created the office of clerk for the board. Mr. E. P. Noble, a member of the board, stated that the clerk was provided for because of the amount of work to do, but possibly some other city official might be employed to do this work at a salary of about \$25. Bill was given first passage, President Reed voting nay.

An ordinance increasing the salary of the health officer was referred. The 10:30 saloon closing ordinance was repealed, the higher courts having said part was valid and part invalid, and it being inoperative.

The ordinance fixing the tax rate at \$1.65 was read. It was stated that since the fire department improvements have been ordered it will require more money, and Alderman Grief recommended raising the tax rate to \$1.75. Solicitor Puryear gave it as his opinion that this could not be done as the law says the apportionment must be made in January and now it can not be altered. Mayor Yeiser differed with the solicitor. Alderman Singleton thought the money could be secured from taxes and licenses without raising the rate, and the \$1.65 ordinance was given first passage. The Mayor and committee were instructed to proceed with the Tenth and Clay and Eleventh and Tennessee street stations.

Mayor Yeiser was authorized to close a deal with E. W. Whittemore to sell a strip of city property at Ninth and Ohio for \$135.

The request for a plank walk on 21st from Clark to Jackson streets was referred.

An electric light was ordered hung at 12th and Jones streets.

Auditor Kirkland was instructed to collect \$21 from the I. C. for tearing down city poles on Meyers street where spur track is being put in.

The carnival promoters were given all concession licenses for carnival week.

The action refusing to increase City Hospital Matron Burchett's salary was ratified.

The prayer of over assessment of J. R. Gray was referred.

Several deeds to lots in Oak Grove were ratified.

Repairs to the cemetery sexton's residence were ordered made.

The matter of putting in a storm water sewer on Broadway between Fifth and Sixth streets was referred to the city engineer.

The fire committee was instructed

SKIN HUMORS BLOOD HUMORS

Speedily, Permanently and Economically Cured by Cuticura

WHEN ALL ELSE FAILS

Complete External and Internal Treatment Price One Dollar

In the treatment of torturing, disfiguring, itching, scaly, crusted, pimply, blotchy and scrofulous humors of the skin, scalp and blood, with loss of hair, Cuticura Soap, Ointment and Pills have been wonderfully successful. Even the most obstinate of constitutional humors, such as bad blood, scrofula, inherited and contagious humors, with loss of hair, glandular swellings, ulcerous patches in the throat and mouth, sore eyes, copper-coloured blotsches, as well as boils, carbuncles, scurvy, sties, ulcers and sores arising from an impure condition of the blood, yield to the Cuticura Treatment, when all other remedies fail.

And greater still, if possible, is the wonderful record of cures of torturing, disfiguring humors among infants and children. The suffering which Cuticura Remedies have alleviated among the young, and the comfort they have afforded worn-out and worried parents, have led to their adoption in countless homes as priceless curatives for the skin and blood. Infantile and birth humors, milk crust, scalded head, eczema, rashes and every form of itching, scaly, pimply skin and scalp humors, with loss of hair, of infancy and childhood, are speedily, permanently and economically cured when all other remedies suitable for children, and even the best physicians, fail.

Sold throughout the world. Cuticura Resealant, 25c in form of Chocolate Coated Soap, 10c per bar. Cuticura Soap, 10c. Cuticura Ointment, 10c per jar. Cuticura Pills, 10c per box. Boston, 107 Columbus Ave. Father Dugay, Chemist Corp., Sole Proprietor. *Also used for the Great Hummer Cure.*

to remodel the north side fire station house at Tenth and Clay streets.

Alderman Davis brought up the trouble at the city scales, saying that there was much complaint. Alderman Singleton suggested charges be preferred but the matter was left open.

On motion the board adjourned.

The Wilford is due tomorrow from Cumberland river.

WEIRD LIGHTS.

A GHOST STORY EXCITES PEOPLE IN TRIGG COUNTY.

The people of some sections of Trigg county are much excited over a "ghost story" told and vouched for by some of the most reputable citizens. At last accounts its mystery had not been solved.

A letter from Canton, Trigg county, to the Cadiz Record, explains it as follows:

Canton, Ky., March 21.—There has been one of the strangest lights seen in my graveyard near this place that I ever saw. It has been seen five times. It goes all over the yard, and very close to the ground. It will go out and then loom up perfectly bright. This is a large grave yard. I know every man, woman and child that is buried there. I am sure that it goes to every grave that is in the yard. This light stays in the grave yard about twenty minutes.

I will give you the names of the witnesses that have seen the light: Myself and Ed McIntosh and wife, Wiley and Rob Upton, Lee Huddleston and wife, and Jeff Huddleston.

J. W. McIntosh.

NEW OFFICE

WATER COMPANY IS TO HAVE ONE ADJOINING ITS PRESENT HEADQUARTERS.

The Paducah Water company is to have a new office adjoining its present office on South Fourth street between Broadway and Kentucky avenue. Mrs. John Orme owns the vacant lot between the water company's present office and the Hannan plumbing shop, and will in a few days begin the erection of a one story office for the water company, to cost about \$2,000. It is expected that it will be ready for occupancy about May 1. The building in which the water company is now located is owned by Mrs. James E. Robertson and it has not been decided who will go into it when the water company moves out.

Quality—Everything pertaining to perfect baking depends on quality and everything that the word implies contributes to the Biscuit, Crackers and Wafers baked by the National Biscuit Company. The best materials, the most modern bakeries, the highest skill in baking—all these unite harmoniously in producing the very highest quality baking the world has ever known.

Protection—Perfect baking is so delicate that air destroys its goodness. It must therefore be carefully protected. The Biscuit, Crackers and Wafers of the National Biscuit Company are placed in air tight packages at the oven door. Strange hands do not touch them—strange odors do not taint them—they reach the table as perfect as they were baked.

NATIONAL BISCUIT COMPANY

Identification—Identification of this perfect baking is easy and certain. This trade mark in red and white always appears on each end of the air tight package containing Biscuit, Crackers and Wafers baked by the National Biscuit Company.

Example—As an example of this perfect baking try a package of Graham Crackers. You will instantly recognize their superiority over any ordinary Graham crackers you ever tasted. They contain all the good of the best Graham flour, enhanced by perfect baking. Always fresh, crisp, clean, in air tight packages.

DAILY THOUGHT.

"Even in the midst of misfortune man carries within himself a permanent source of exquisite enjoyment; for he has always the power to do good."

THE WEATHER

Fair in west portion, showers in east portion and colder tonight Saturday fair and colder.

Mayor Yeiser has given to the board of public works part of his office at the city hall, but as the mayor and board of public works are about the same thing, he doesn't lose much.

Paducah is in a fair way to get the fire protection the people have long been in need of. It took some strenuous work to force the dilatory city officials to act, but they have learned a lesson.

The mayor and the city solicitor seem to disagree as to what is the law. There differences ought to have been referred to a committee as everything else is, and then they would probably never have been heard of again.

The Alabama murderer who hanged himself in jail to keep the sheriff from doing it outside, saved the sheriff from an unpleasant duty. He probably got to thinking something like the people of Paducah, who have found out that the best way to do the things you elect men to office to do, is to do them yourself.

Honest criticism is a good thing when it has the proper effect. In Chicago, the other day, a caustic criticism of the police force was made by a man employed for the especial purpose. As a result forty-seven policemen have already been discharged, and there is to follow a general shake-up, the most extensive in many years.

The joint hospital committee of the general council is ready to hold a conference with the doctors relative to the new city hospital. The doctors should lose no time in calling a meeting before the legislators get out of the motion. The hospital, market house and street bond matters have dragged along quite long enough. It is time to get busy.

It is to be hoped that the Board of Public Works will turn out to be a benefit instead of a graft. If it is to be used simply as a means of creating more offices for the people to support, the city would be better off without it. None of us now know what the work incident to the board's duties will be, for the board is something entirely new, and until we do, the boards should think twice before creating new offices.

The Democratic committee of the First District will meet tomorrow and go through the perfunctory duty of declaring Hon. Ollie James the Democratic nominee for Congress. He has no opponent this time, because big Ollie, good natured and harmless, has lumbered about the district for several years helping out the party. He is now getting his pay. He has been in Congress about a year, and won ephemeral notoriety by introducing a bill that would have destroyed state rights hadn't it been killed. He will get the nomination this time, but never again. Next time Hon. J. Wheeler Campbell will probably win it in a walk. He could probably give the big Congressman from Kentucky a run for his money now if he wanted to. Senator Campbell is modest and is willing to wait until Mr. James' first term has been "endorsed."

"DO IT TODAY."

The time worn injunction, "Never put off 'til tomorrow what you can do today," is now generally presented in this form: "Do it today!" That is the terse advice we want to give you about that hacking cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it today—and let that remedy be Dr. Boschee's German Syrup, which has been in use for over thirty-five years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. LIFE SENTENCE FOR THE SECOND TIME

Jury in the Lon Fuqua Murder Case Reaches a Verdict.

Was Convicted For Complicity in the Killing of George Gray in 1901.

BUSINESS RUSHING IN CIRCUIT

Lon Fuqua, colored, charged with complicity in the murder of George Gray, colored, on December 30, 1901, was this morning given a life sentence making the second time he has received a life sentence. "Spot" Polk, who did the shooting, is now serving a life sentence.

Polk and Fuqua met Gray in the Nathan Bennet saloon, near Ninth and Boyd streets, and had been at odds with him for some time. Polk expressed his intention of shooting Gray and was encouraged by Fuqua who took no other part.

Several shots were fired into Gray who lingered for several days, finally dying of the wounds. Both men were arrested and Polk was tried first. He got off with life sentence. Fuqua was subsequently tried and given a life sentence, but through his attorneys secured a new trial and the jury after having been out on the case since yesterday morning at 10 o'clock, this morning brought in a verdict of guilty and fixed his punishment at life imprisonment.

It is understood several members of the jury stood for hanging while two stood for lighter punishment, a compromise finally being effected.

Tom Martin, colored, charged with maliciously cutting Ed Marable, was found not guilty and discharged.

Ed Owen, a witness, who did not respond to a summons speedily enough to suit Judge Reed, was placed in jail for one hour for contempt of court.

Judge Reed intends to clear up his docket and keep it clear and will fine all witnesses who do not attend court after having been summoned regularly.

Thomas Kelley, colored, was given two years in the penitentiary this morning for false swearing. He swore in police court that he did not have a pistol concealed on his person, and the evidence showed that he did.

At press time the case against Charles Harris, colored, for attempted arson was on trial.

Harris was imprisoned in the city jail and attempted to burn it down by building a fire in his cell directly under the floor of the city room. The fire was discovered in time to prevent much damage.

The case against John Mann, white, robbing Jim Rogers of a watch back of the Klondike saloon last fall, was given to the jury this morning.

DAMAGE SUITS FILED.

Jeff D. Carter today filed a suit in circuit court against the L.C. railroad to recover damages amounting to \$5,000 for personal injuries. He states he was employed in a switching crew by the L. C. and was sent on a car to set a defective brake which broke as he attempted to set it, throwing him off the car and permanently injuring his right shoulder. He claims the brake was defective because of the negligence of the defendant in having it repaired.

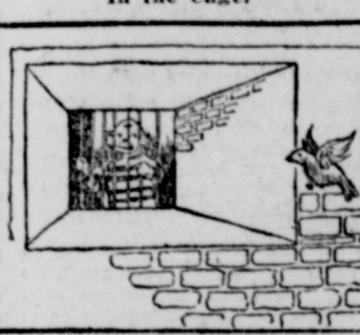

MRS. YEISER'S WILL FILED.

Mr. T. J. Flournoy has qualified as executor of the will of the late Mrs. Elizabeth Yeiser. The will has been admitted to probate in county court. She leaves her household and personal effects to her brother, La Fayette Roberts, and the remainder of the estate to her nephew John Williams. Her son, Philip D. Yeiser, was left \$1. The instrument was drawn up February 6, 1903 and witnessed by Lelia Plegle and Fred Kamleiter.

SUIT ON A NOTE.

O. T. Hale and A. D. Thompson, for the use and benefit of C. T. Hale and A. D. Thompson, administrators of N. T. Hale, have filed a suit against M. G. Sale to secure the payment of an alleged balance of on a note.

TRY COMPRESSED AIR

Will be Used by Mr. F. W. Katterjohn Shortly.

To Discard Steam and Run the Drills in the More Modern Way.

BEST QUARRY IN THE COUNTRY

Mr. F. W. Katterjohn, the well known contractor and operator of the Katterjohn stone quarries at Cedar Bluff, three miles above Princeton, has returned from Chicago, Philadelphia and other eastern cities, where he went to purchase a big air compressor for his plant at Cedar Bluff.

Mr. Katterjohn intends to make extensive improvements at the quarries this spring and instead of running his many drills by steam as he is at present doing, will inaugurate a new feature and use compressed air.

"I have just returned from the east where I went to buy a big air compressor and the big machines is over 20 feet long, one of the largest in the state," he stated this morning at the train.

I work over a dozen drills and drill daily over 1,500 feet of stone.

"I have to haul coal some distance from the railroad and the expense can be curtailed by installing the plant. I intend to have the biggest and best equipped quarries in the country when I finish with my improvements and with the addition of the big stone crusher which will be installed this spring, as soon as I get my equipment completed I will be enabled to turn out twice the amount of stone I am now putting out."

Mr. Katterjohn left this morning for Louisville to make a contract for two big boilers furnishing 250 horse power. These two new boilers with the two now in operation at the quarries will make a very strong battery, and this week Mr. Katterjohn is beginning to excavate for a 90 foot smokestack which will be under course of construction in a few days.

The costs of the improvements in adding air equipment will amount to something like \$11,000, and the boilers and air compressor will arrive as soon as they can be brought to Cedar Bluff over the railroads.

LIKE MOTHERS

THE SON FOLLOWED HAPPILY.

Improper food and drink wears out the stomach before its time but sometimes it only appears to be worn out and the right food and drink will restore it.

When mother reached her 86th year she was in a very critical condition from her stomach. The doctors said it had worn out and they could not make her a new one.

"She had been a coffee drinker for many years and thought she couldn't get along without her cup of coffee. One day a friend persuaded her to quit coffee and try Postum.

"He urged so hard we got some for her and decided to give it a trial, she formed a fondness for it but it was some little time before we could see her improve much at her age. After a while however her stomach began to get stronger and stronger, and today, at the age of 86 she is far better than she was at 86 and we credit Postum Coffee for the improvement for we know exactly that did it.

"For years I myself was troubled with bad headaches, stomach constantly out of order, felt bad, got irritable, cross in the house at my work, ran down in flesh with a weak, trembling nervous spot at the pit of my stomach. Doctors could not fix me up when I saw mother's improvement. I concluded it might be coffee so I commenced Postum too and it was not long before my headaches left me, the empty spot in my stomach was filled, my nerves were better. Now I am always in good humor and want to see my friends and have them see me. I have gained much in weight, don't know just how much, feel good, have a good color and am a proud man.

"We know lots of cases among our friend and neighbors where Postum has done almost as much good as it has in our own home when used in place of coffee." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

INTERESTING WEDDING

The Louisville Courier Journal says:

"An engagement which will create much interest is that of Miss Mary Antoinette Graves and Mr. Frederick Ringgold Huber, of Knoxville, Tenn., just made public by Miss Graves' mother, Mrs. Otoe Graves.

An interesting fact in connection with the wedding is that it will be solemnized on the anniversary of the marriage of the bride's parents, and the occasion will be a double wedding as Miss Sarah Graves, the bride's sister, will be married the same evening to Dr. Charles Reynolds, of Covington.

The ceremony will take place at the Fourth avenue Presbyterian church, and will be performed by the Rev. Dr. Samuel Ringgold, rector of St. John's Episcopal church, of Knoxville, who is the groom's grandfather.

Miss Graves is a relative of Dr. W. T. Graves and County Attorney Eugene Graves, of this city.

WHEN HART

SSS THE BEST TONIC

In S. S. S. Nature has provided a tonic suited to every requirement of the system when in a debilitated, run down condition. It contains no strong minerals or drugs, but is a pleasant vegetable preparation. You can find no better remedy for toning up the nerves and bringing refreshing, restful sleep when in a low state of health, or sick and worn out with work or worry.

S. S. S. improves the appetite, aids the digestion and reinforces the system, and its good effects are seen almost from the first dose. It acts promptly in cases of chronic dyspepsia, indigestion and all stomach troubles, and does away with the uncomfortable fullness, nausea, shortness of breath, drowsiness and dizziness that so often come after eating.

S. S. S. is not only the best tonic but possesses alterative or purifying properties, and if there is any taint, humor or poison in the blood it searches it out, and removes it. Many times a low state of health is due to a bad condition of the blood and can only be remedied by a blood purifier and tonic combined, or such a remedy as S. S. S.

If you suffer from debility, insomnia, nervousness, loss of appetite, bad digestion, or any of the symptoms of a disordered blood, nothing will so soon put your blood in good condition, invigorate and tone up the system as S. S. S.

TOBACCO COMING IN ALL OVER THE STATE

Many Loads are Being Brought in for the Imperial.

The Western Tobacco Journal Gives the Status of the Market in the State.

PRICES LOWER AND MEDIUM

DOGS THAT EAT CORN

Tobacco is now moving into Paducah, but is several months late, and is coming only to one or two places. The Imperial Company, of London, is buying quite extensively and preparing to put up the weed at its stemmeries at 8th and Clay streets, but outside of this very little is coming to town.

Other tobacco news from this section is:

(Western Tobacco Journal).

From correspondents and our exchanges we learn that during the past two weeks there has been little change in the quality of tobacco marketed in the leading markets of Henderson and Owensboro, although with favorable handling weather deliveries have been large and judging from latest reports they are likely to continue large and in fact too large to suit stemmers, who have bought freely of late, and who have on hand a large stock of tobacco in very soft order, a great deal having been delivered in that condition, with but little prospect of their being able to catch up and get in condition to purchase as heavily as they have been doing. In both markets this being the case, it has led to a good deal having been sold at lower prices, but in reality as high as formerly for dry order.

The quality of the crop can not be said to have improved any, and in Henderson stemmers consider the 1903 crop the hardest to handle they ever experienced, from the fact of it being so mixed with so many different colors and lengths, and only by the most careful handling and picking can anything like uniformity in the stripe be had.

In Henderson it is supposed that about, half the crop has been sold, if not more, with prices somewhat lower on the common and medium qualities with really good tobacco not much in evidence either in Henderson or Owensboro. From the latter market we hear of one or two new buyers being added, that the Gallagher Company have been in the country trying to buy, but have done little, while the Imperial Company is reported to have bought in the country very freely of the best crops, with the Messrs. Birks and Phillips & Hughes buying freely in open market. Many others have done little of late, fearing that the make of strips to be put up, which is estimated at 7,000 hogsheads, will be far in excess of the demand in England, which includes what the Imperial and Gallagher companies will have.

Most of the farmers around Owensboro say they will curtail their crops, some declaring they would not grow any tobacco. The majority of them have their plant beds burned and a few are done sowing. About Henderson much the same feelings and conditions exist.

Wednesday at Owensboro was one of the best days of the season at the auction house. Seventy-four loads of tobacco were sold. The highest prices were paid to Charles McKay. His Pryor tobacco brought \$6.50, \$6.25 and \$2. Several other loads reached the six dollar mark. The market is considerably better than it was two months ago.

FORRESTS RAID.

TODAY IS THE FORTY-FIRST ANNIVERSARY OF IT.

Today, March 25th, is the forty-first anniversary of an event that will not be soon forgotten by many of the older Paducahans—Forrests Raid. The Federals were in charge of the city when it was attacked.

The Paducahans killed or injured during the battle were:

Ed Moss, uncle of R. E. Ashbrook, killed; wounded, Chas. Yatunker, brother of Squire John and Joe Yatunker, of St. John's neighborhood, mortally wounded; H. E. Hard, nephew of John Ewell, and James Sirk, of Southern Illinois, flesh wounds.

An unusual coincidence is that forty-five years ago, March 25 also fell on Friday, as this year.

"Could Not Feel Like Working"—Strength Came Back at Once When He Took Paine's Celery Compound.

"The writer feels that a word from him regarding the value of Paine's Celery Compound and the good it has done him will not be out of place.

"Last spring my condition was such as to occasion some alarm. My work exposed me to all kinds of weather and the effect was plainly felt. I could not feel like working, being very heavy and dull. My system was entirely out of order.

"As your remedy was very highly recommended by friends, I commenced its use, and could hardly credit the improvement brought about immediately. My strength came back and if my restored health had been accomplished by a doctor he would not have a better friend in the community. But I give all the praise to Paine's Celery Compound."

VARIABLE ROUTES TO FLORIDA.

In addition to the numerous facilities provided for the comfort and pleasure of Florida travelers, the Southern Railway and Queen & Crescent Route have this year added a new and unusually attractive feature in the form of a variable route tourist ticket, by means of which, at a slight additional expense, the going trip may be made via Chattanooga, Atlanta and Macon and the return trip via Savannah, Columbia, Asheville, Hot Springs and Knoxville—or vice versa—including stop off, if desired, at all of these and other points, so that a passenger may visit Lookout Mountain, the beautiful "Sapphire Country," the "Land of the Sky" and the principle commercial centers and tourist resorts en route.

The "Chicago and Florida Special" is a superb train composed of through Pullman Drawing Room sleepers, composite car and dining car, leaves Cincinnati every evening except Sunday, via the Queen & Crescent Route.

A handsome observation sleeper leaving Louisville at 7:25 p. m., is attached to the "Special" at Lexington and this train then runs through solid via

Southern railway from Chattanooga to Jacksonville and St. Augustine, arriving at 9:30 p. m. and 10:35 p. m., respectively the next evening, making connection at Jacksonville for interior Florida points.

The "Florida Limited" leaves Cincinnati every morning the year around via the Queen & Crescent Route connecting at Lexington with the Southern railway trains from Louisville. This train also runs through solid to Jacksonville and St. Augustine via Southern Railway from Chattanooga carrying sleeping cars, observation and dining car, arriving at 9:45 a. m., and 11:15 a. m., respectively.

The Q. & C. "Special" leaving Cincinnati every evening carries Pullman sleeper through to Jacksonville via Southern railway from Harriman Jct. through Asheville, the "Land of the Sky" and Savannah. This train also connects at Lexington with train from Louisville.

There is of course corresponding fine service via each of these routes on the return trip. Either of the following booklets will be sent on receipt of two cent stamp: "Land of the Sky," "Winter Homes, containing hotel list, "Hunting and Fishing in the South," containing game laws, Cuba folder, etc.

Complete information as to rates, schedules, etc., will be gladly furnished on application to C. H. Hungford, D. P. A. Southern railway, 234 Fourth Avenue, Louisville, Ky.

The Carnation Industry.

The carnation industry has risen to considerable importance during the past ten years, says Town and Country. As 2,500,000 of young carnation plants are sold each year and the florists produce an equal production of young carnation plants approximates 5,000,000 per annum. These plants are grown under glass during the winter time for cut flower purposes, producing an annual average of more than 100,000,000 blooms. What becomes of this enormous number of flowers is somewhat of a mystery.

Promising Career Cut Short.

Friends of Milton J. Flood, the young naturalist, no longer doubt the report that he was captured by Papuan cannibals and is dead. He was an enthusiastic scientific investigator and was employed some years ago as an inspector by the gypsy moth commission, when efforts were being made to exterminate the pest in Massachusetts.

And so you wish me to be consistent," she retorted scornfully. "What becomes of your gallantry when we abide by reason?"

"True enough; equality is a denial of privilege."

"And privilege is a denial of equality? I don't like that at all." She turned a serious, suddenly illuminated face upon him and spoke earnestly: "It's my hobby, I should tell you, and I'm tired of that nonsense about women always sounding the personal note." It should be sounded as we would sound it. And I think we could bear

Rob You.

Work, Worry, Trouble Waste Your Life Force, and Rob Your Heart.

Anything that uses up nervous vitality too fast in any one part of the body, robs and weakens the heart.

Thus overwork, worry, grief, La-Gripe, fevers and all sickness, tobacco, alcohol and other stimulants decrease the vitality of the heart and rob you of just so much of your life.

The best remedy is Dr. Miles' New Heart Cure. This restores to the nerves of the heart the vital strength of which they have been robbed, thus strengthening this vital organ.

By taking Dr. Miles' New Heart Cure before the heart is permanently affected, possible dangerous disease is warded off. Even after the disease is upon you. Dr. Miles' New Heart Cure will yet be nearly sure to effect a permanent cure.

When eminent physicians have been unable to relieve heart trouble, Dr. Miles' New Heart Cure has restored the patient to perfect health.

"I was taken with a very severe pain in and around my heart, accompanied by irregular heart action. I tried two tonics and remedies, but did not get relief, then commenced taking Dr. Miles' New Heart Cure, which soon cured me, and I have since passed examination for old life insurance and was recommended to me as a good investment. I hate being called up for my 'privilege!' I hate being called up for myself."

She was so earnest in her satire, so full of scorn and so serious in her meaning, and there was such a contrast between what she said and her person—she looked so pre-eminently the pretty marquise, the little exquisite, so essentially to be waited on and helped, to have cloaks thrown over the dampness for her to tread upon, to be run about for—he could see half a dozen youths rushing about for her lees, for her carriage, for her chaperon, for her wrap, at dances—that to save his life he could not repress a chuckle. He managed to make it inaudible, however, and it was as well that he did.

"Understand your love of newspaper work," she went on less vehemently, but not less earnestly. "I have always wanted to do it myself, wanted to immensely. I can't think of a more fascinating way of earning one's living. And I know I could do it. Why don't you make the Herald a daily?"

To hear her speak of "earning one's living" was too much for him. She gave the impression of riches, not only by the fine texture and fashioning of her garments, but one felt that luxuries had wrapped her from her birth. He had not had much time to wonder what she did in Plattville. It had occurred to him that it was a little odd that she could plan to spend any extent of time there, even if she had liked Minnie Briscoe at school. He felt that she must have been sheltered and petted and waited on all her life. One could not help yearning to wait on her.

"He answered faintly, "Oh, some day," in reply to her question and then fell into outright laughter.

"I might have known you wouldn't take me seriously," she said, with no indignation, only a sort of wistfulness. "I am well used to it. I think it is because I am not tall. People take big girls with more gravity. Big people are nearly always listened to."

"Listened to!" he said, and felt that he must throw himself at her feet. "You gulgut to mind being Titania. She was listened to. You!"

She sprang to her feet, and her eyes flashed. "Do you think personal comment is ever in good taste?" she cried fiercely, and in his surprise he almost fell off the bench. "If there is one thing I cannot bear, it is to be told that I am 'small.' I am not. Every one who is not a giantess isn't 'small.' I detest personalities. I am a great deal over five feet, a great deal more than that!"

"Please, please," he said, "I didn't—" "Don't say you are sorry," she interrupted, and in spite of his contrition he found her angry voice delicious, it was still so sweet, hot with indignation, but ringing, not harsh. "Don't say you didn't mean it, because you did! You can't unsay it, you cannot alter it, and this is the way I must remember you! Ah!" She drew in her breath with a sharp sigh and, covering her face with her hands, sank back upon the bench. "I will not cry," she said, not so firmly as she thought she did.

"My blessed child!" he cried in great distress and perturbation. "What have I done? I—I—I—"

"Call me 'small' all you like," she answered. "I don't care. It isn't that. You mustn't think me such an imbecile." She dropped her hands from her face and shook the tears from her eyes with a mournful little laugh. He saw that her fingers were clinched tightly and her lip trembled. "I will not cry," she said again.

"Somebody ought to murder me. I ought to have thought—personalities are hideous!"

"Don't! It wasn't that."

"I ought to be shot!"

"Ah, please don't say that," she said, shuddering. "Please don't, not even as a joke, after last night!"

HAD A LARGE FAMILY.

But the Increase of Population Was All in His Mind.

It is said that a farmer living near Fulton was standing in his barnyard a few days ago when a well-dressed stranger leaned against the fence and inquired how much he would take for one of the cows in the lot.

"One hundred dollars," was the reply.

"I'll take her," said the man. "Can you give me two more like her?"

The farmer, thinking he had a chance to dispose of several of his cows at good prices, drove two more out of the barn, and offered the three to the stranger for \$300.

"All right," said the stranger, beginning to climb over the fence. "I want them to furnish milk for my children."

"How many children have you?" asked the farmer, in some astonishment.

"Ninety-three," was the calm reply.

The farmer was getting ready to ask the man his name, with the purpose of sending an account of his life and public services to President Roosevelt as evidence that American families are now growing smaller, when two guards from the Fulton insane asylum appeared and led the stranger gently away.—Kansas City Journal.

OUR BIG RAILROAD OF INDUSTRY

A Million and a Quarter Workers and Their Number Increasing.

The railroads in this country are employing more persons than ever before in their history. According to statistics in the report of the Interstate Commerce Commission there were 594 railroad employees for every hundred miles of tracks last year, and there were 1,189,315 employees altogether.

In the year before there were only 1,071,169 railroad employees, and the average was only 548 for every hundred miles of line, so that independently of the increase in mileage the number of workers employed has increased 46 for each hundred miles of line.

Since these statistics were collected there has been a correspondingly large increase in the number of employees, if railroad statisticians are to be believed, so that the number of men on the railroad payroll in this country is considerably over a million and a quarter.

Fear Eclipse of Moon.

The eclipse of the moon is full of portent to the Macedonian Mohammedans. It indicates bloodshed. It is met with reports of firearms and the imams call from the minarets the faithful to public prayers in the mosques.

This recalls in a striking manner the practices of many savage and barbaric nations. The great nations of Asia, such as the Hindoos and the Chinese, still cling to the belief in the eclipse monster. The latter meet it with prayers, like the Turks. But even in civilized Europe, both ancient and modern, one finds numerous proofs of this superstition. The Romans came to the succor of the afflicted moon by flinging firebrands into the air, by the glare of trumpets and the clang of brazen pots. The superstition survived through the middle ages into a very late period. France, Wales and Ireland offer many instances as late as the seventeenth century.

HANGS HERSELF

THIRTEEN YEAR OLD GIRL DEPENDENT OVER LOVE AFFAIR.

Marion, Ind., March 25.—Ida Degolyer, a thirteen year old girl, was found unconscious this morning suspended by a cord with which she had hanged herself. She is a school girl and a love affair is supposed to have caused her to attempt at self destruction. It is believed she will recover.

HANGING TODAY

CHELSEY PEOPLES HANGED FOR MURDER OVER GAME OF CARDS.

Norfolk, Va., March 25.—Chelsey Peoples was this morning at Wytheville hanged in the jail yard for the murder of John Seagel. They were both well known men and quarreled over a game of cards. Peoples was game and walked with a firm tread to the scaffold. His neck was broken.

What He Wanted.

The sad-faced man entered a dry goods house and said:

"I want a waste basket."

"What kind?" asked the clerk, briskly.

"W'y, I believe she said she wanted a straight-front one without these awful stiff stays in it—"

"But I thought you said you wanted a waste basket?" said the impatient clerk.

"I do. What's them things that's straight front and got stays in 'em but waist baskets?"

Being an obscure person, the clerk had but a small funeral.

NEWS OF THE RIVERS.

Observations taken at 7 a. m. River 28 5 on the gauge, a rise of 1.9 in the last 24 hours. Weather cloudy and threatening rain. Rainfall 1.12 with 70 temperature. Heavy winds last night with little damage to river property. Stage will probably go as high as 35 feet here before fall sets in.

S. A. FOWLER,
Local Observer.

Capt. H. Baker is better today. The Grace Smith is here from Memphis.

The Joe Fowler is today's Evansville packet.

The Hook went into Tennessee river this morning.

The Dick Fowler cleared on time today for Cairo.

The Charleston went into Tennessee river yesterday.

The Royal arrived and departed on time today for Golconda.

The Russell Lord is due Sunday from the Mississippi river.

The Nevins went to Memphis with a ton of coal this morning.

The Savannah passed out of Tennessee river last night about 11 o'clock.

The Heatherington did not get away yesterday for Tennessee but will leave today.

The Victor and Penguin are working in the Cumberland and are not due out for some time.

The John A. Wood left yesterday afternoon for the lower Mississippi river after delivering three barges of coal here.

The Memphis passed into Tennessee river this morning about 3 o'clock. She had a good trip. Captain Jack Lane stopped off the Memphis and is in the city here.

Information comes from Memphis that no effort will be made to raise the tug Ida. She sank in many feet of water, and is said to not be worth the cost of raising.

The Sam A. Conner, brought by Nashville parties, is here. She came out of Tennessee river from Chattanooga and proceeded up the Cumberland this afternoon.

SOMETHING DOING

HIGH OFFICIAL RIVETS HIS OPTICS ON THE "BOX CAR SPECIAL."

It is believed in local railroad circles that a transfer boat will now soon be sent to Paducah. It is said that yesterday when Assistant General Manager W. J. Harahan was in Paducah in his private car a switch engine came along with a box car. The engine stopped at the depot and the passengers got out.

The official's eyes began to grow larger. "What is that thing?" he is alleged to have asked a trainman.

"That's the St. Louis train," one of the yard men replied with a twinkle in his eye and a secret joy in his heart. The official took another look and then hurriedly left. It is expected that something will drop, if it hasn't already dropped.

"I'm glad he saw it," one train man said afterward. "We've done all we could to get equipment, and I guess now we'll get it."

The only trouble here is that there is no transfer boat. When one is sent all trains can be handled as formerly.

BROKE INTO SCHOOL

BUT NOTHING WAS STOLEN, SO FAR AS KNOWN.

The High school was entered last night but fortunately nothing taken and very little damage done.

Entrance was effected through a side window which was broken out, and one door leading to the ladies' toilet room was broken in several places. The intruder or intruders did not seem to care to visit the upstairs portion as no evidence of their going on the upper floors could be found.

GETS EIGHTEEN YEARS.

Moorhead, Ky., March 25.—Harvey Moore was given eighteen years in the penitentiary for murder of Finn Tolliver.

Being an obscure person, the clerk had but a small funeral.

Theatrical Notes.

One of the most popular attractions that visits our city is the famous Brothers Byrne's new "Eight Bells" which will be seen at The Kentucky tonight.

This successful acrobatic pantomime comedy never grows old as each season so many changes are made, new pantomime tricks and features introduced that the annual visitor to "Eight Bells" is always surprised at the host of new novelties. This season there is no deviation from this rule as the comedy has been entirely rewritten, new characters introduced, new pantomime tricks invented and equipped with new scenery and effects.

"At Valley Forge" will be the attraction at The Kentucky Saturday matinee and night, March 26.

The Indianapolis Sentinel says:

"At Valley Forge" delighted a large audience last night. The scenes are laid in and around Valley Forge and historic Trenton at the close of the revolutionary war. The play possesses a stirring heart story told in a logical and impressive manner.

Manager Walter Loftus of the "8-Bells" Company, and wife are at the Palmer.
